ATSYS

Workplace Health & Safety Policy

ATSYS is committed to protecting the health and safety of all its employees while they are at work.

ATSYS will actively take all reasonable steps to improve work safety conditions and will strive to achieve a goal of zero harm. ATSYS is committed to:

- complying with all applicable health and safety laws, regulations and standards
- eliminating hazards and reducing OH&S risks
- providing safe work areas and equipment for all employees, contractors and visitors
- providing information, training and support to continually improve health and safety at work
- undergoing and implementing risk management procedures
- identifying, reporting, investigating and resolving any health & safety non-conformances and taking action to prevent a recurrence
- the consultation and participation of workers, and, where they exist, workers' representatives
- continually improving the management of our safety system
- achieve zero safety incidents
- provide rehabilitation service to employees the enable injured workers to return to safe and suitable duties as soon as practicable
- be an industry leader through our Zero Harm and safe workplace culture

To achieve this ATSYS has developed and implemented an Integrated Management System which complies with the requirements of ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018. Quality, environmental and safety objectives are established and regularly monitored through management meetings and formal management review to facilitate continual improvement.

This Workplace Health and Safety Policy and the Integrated Management System are fully supported by management and it is the responsibility of staff to ensure they are understood and implemented at all levels within ATSYS.
